## UPCOMING SOLO EXHIBITIONS

### **CMYK9 (Pandemic Pets)**

Toronto, June-July 2023: Silvershack

Vancouver, October-November 2023: Janaki Larsen Studios

A very different perspective of the world over the last few years. Exploring the colour our canine friends bring to our us.

## SOLO EXHIBITIONS

### ***Global Pandemic***

*Vancouver*, March-April 2022, Dal Schindell Gallery  
Photographs of discarded masks alongside items from nature and connected to childhood fables. *Global Pandemic* is a statement on the two pandemics we are currently facing; COVID-19 and the second, and more insidious one, the waste we are producing in response.

### ***An Unexpected Collection***

*Vancouver*- Fabrique St. George  
*Toronto* - Bob Carnie Print Making & Art Gallery 2021  
Photographs and stories of spoons that were broken during the 7PM cheer for first responders at the beginning of COVID-19.

*All photos from each exhibition are printed in a 19th-century printing technique called tri-colour gum bichromate over palladium, a process that is said to maintain its quality for more than 500 years. This longevity means that the stories and photographs will be around to share for generations to come.*
